

Thanner

Hydrostatic Release Unit DK84.1 M Serviceable HRU with permanent manual release

*The DK84.1 M is a special version of the standard Solas approved DK84.1
This version has a permanent manual release button secured by a safety split, to
avoid unexpected release. The manual release facility eliminates the need of a
stenhouse link between the HRU and the container webbing. It also allows a
stronger tightening of the webbing to keep the container in the cradle.*

Release depth: 1,5-4 mtrs. water gauge

Buoyancy load : 1800 kg.

Safe operation under gun blast and gun chock impact

Weight 1,45kg.

*US Agent:
Adi Technologies Inc.
1487 Chain Bridge Road
suite 204-205
22101 Mclean Virginia
